RE: Tandem switch decommission at UTELCO, LLC located in Monroe, WI

Upon regulatory approval, on or after September 15, 2019 TDS TELECOM will decommission its Class 4 access/local tandem switch in Monroe, WI (MONRWIXA61T) and discontinue offering tandem switching service and local transit service at that location.

All customers and offices served by MONRWIXA61T have been migrated to the AT&T **MDSNWI1171T** access tandem. Carriers with Tandem Trunk groups to MONRWIXA61T should establish Direct End Office trunks to MONRWIXAPS0 or augment trunk groups to the AT&T **MDSNWI1171T** access tandem to accommodate their Monroe traffic.

Carriers should issue disconnect orders now for any trunks remaining on MONRWIXA61T to the TDS Telecom Access Service Center. A list of affected trunk groups is below. All trunk groups must be disconnected by September 15, 2019.

[REDACTED]

The FCC will normally authorize this proposed discontinuance of service (or reduction or impairment) unless it is shown that customers would be unable to receive service or a reasonable substitute from another carrier or that the public convenience and necessity is otherwise adversely affected. If you wish to object, you should file your comments as soon as possible, but no later than 15 days after the Commission releases public notice of the proposed discontinuance.

You may file your comments electronically through the FCC's Electronic Comment Filing System using the docket number established in the Commission's public notice for this proceeding, or you may address them to the Federal Communications Commission, Wireline Competition Bureau, Competition Policy Division, Washington, DC 20554, and include in your comments a reference to the §63.71 Application of UTELCO, LLC d/b/a TDS Telecom. Comments should include specific information about the impact of this proposed discontinuance (or reduction or impairment) upon you or your company, including any inability to acquire reasonable substitute service.
